Look Beyond

The Faces & Stories of People with HIV / AIDS

Michelle Valberg has dedicated the past two years to fulfilling a vision: capturing on film people from across Canada living positively with HIV/AIDS and recording their intimate reflections on life and love. The photographs beautifully presented in LOOK BEYOND will bring a smile to your face and tears to your eyes; they will fill you with warmth and give you hope for the future.

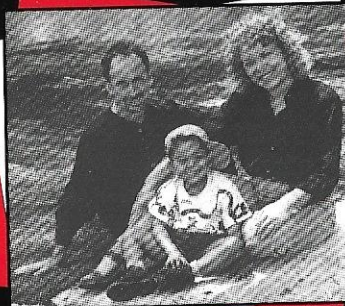

Michelle Valberg

Michelle's purpose for LOOK BEYOND is to teach you and show you by way of her photography, that HIV/AIDS is a concern to all Canadians, especially to our children and their future. These powerful photographs reveal the harsh reality of this disease, those it touches and those who are living with it.

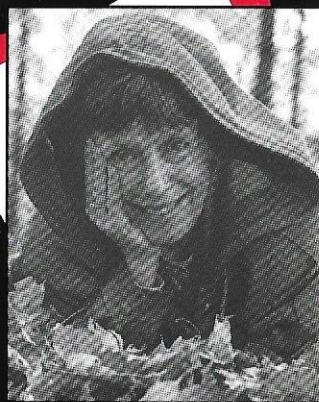

It was a late fall day in 1993 when Michelle watched a precious spirit be taken away. Louis Turpin was her friend. Louis had AIDS. Through his short life and his death, Louis became an inspiration. This book is dedicated to him.

"If I can bring to you or teach you an ounce of what these people have brought to my life, I will have done something for AIDS, or perhaps something for yourself, for your inner being. When I embarked on this project, I never imagined what was to lay ahead. I could have never known how much there was to learn, love and appreciate." - Michelle Valberg

There are many faces of AIDS . . . that is what this book is all about.

Snowy Owl AIDS Foundation

The goal of the Snowy Owl AIDS Foundation is to establish, build and maintain a financial resource available to organizations dedicated to AIDS education, prevention and direct support services. The funds administered by the Foundation are used to create, expand and enhance HIV/AIDS programs offered by existing charitable organizations, in helping people touched by this disease.

The Snowy Owl AIDS Foundation is a fully recognized charitable foundation established in memory of Louis Turpin. On the day of Louis' death, as family and friends were gathered to share in his passing, an enormous snowy owl appeared just outside the window of Louis' room. For those present, that magnificent bird signified comfort and hope and became a living representation of the love, compassion and beauty of the human spirit which is seen every day in the fight against HIV and AIDS.
